

Jaydip Sakhiya

Flutter & FlutterFlow Developer

Surat, Gujarat, India | jaydipsakhiya79@gmail.com | 4 Years of Hands-on Development Experience

PROFESSIONAL SUMMARY

Detail-oriented Flutter and FlutterFlow Developer with 4 years of hands-on experience designing, developing, and deploying scalable mobile and web applications. Strong experience with Flutter, Dart, FlutterFlow, Firebase, REST APIs, MQTT, IoT systems, GetX state management, responsive design, Flutter Web, MVC and MVVM architecture, local storage, cloud storage, Git/GitHub, and translating Figma designs into clean, user-friendly applications. Experienced across IoT energy management, social media, e-learning, fitness, event ticketing, AI-powered productivity, e-commerce, GPS vehicle tracking, and field-service applications.

PROFESSIONAL EXPERIENCE

Senior Flutter Developer

BinaryApptech • November 2022 — Present

- Lead development of IoT, real-time, and Firebase-heavy applications including MachineSensIoT and AfghanX.
- Own Firebase database architecture decisions for scalable social, marketplace, and real-time features.
- Translate Figma designs into responsive, production-ready Flutter and Flutter Web interfaces.

Junior Flutter Developer

BinaryApptech • April 2022 — November 2022

- Built and shipped Flutter features across multiple client applications.
- Learned MVC/MVVM architecture and REST API integration in production codebases.

Flutter Developer — Freelance

Independent • January 2025 — Present

- Delivered client applications including TrackFit, Yashvi Entertainment, and FM10X Technician App.
- Own full project scope end-to-end: requirements, architecture, UI implementation, and delivery.

TECHNICAL SKILLS

Mobile Development: Flutter, Dart, FlutterFlow

State & Architecture: GetX, MVC, MVVM

Backend & Data: Firebase, REST APIs, Local Storage, Cloud Storage

Real-Time & IoT: MQTT, IoT, Real-time Data

Development: Git, GitHub, Responsive Design, Flutter Web

Design: Figma, UI Implementation

Firebase: Authentication, Firestore, Storage, Cloud Messaging, Real-time Data Management

SELECTED PROJECTS

MachineSensIoT — IoT energy management platform with real-time dashboards, SCADA, and device control.

AfghanX — FlutterFlow social platform with reels, communities, marketplace, jobs, and real-time chat.

Yashvi Entertainment — Role-based Navratri event ticketing app with seat selection and season passes.

AI NoteTracker — FlutterFlow app converting recorded/uploaded audio into text notes via AI.

Twings — Real-time GPS vehicle tracking with Google Maps clustering and live speed metering.

FM10X Technician App — Field technician task lifecycle app with safety checks and signature capture.

EDUCATION

Bachelor of Computer Applications Sutex Bank College of Computer Applications & Science • 2021 — 2024

HSC Gnanadeep Vidhyalay • 2020 — 2021

SSC Prerana Vidhyalay • 2018 — 2019

LANGUAGES

English, Hindi, Gujarati
